

E. R. GENTRY.

My physician advises me that I have a slight attack of Typhoid fever; also that under the most favorable conditions that I will necessarily be confined to my room for a week yet and possibly longer. Therefore it will be impossible for me in person, to wage the vigorous campaign, in my own behalf that I had planned, and I must appeal to my friends to take up my fight and see to it that my interest is not neglected. I am already under obligations to you, and for you to throw yourself into the fight and successfully carry me a sick man to victory you would have my lasting gratitude and, demonstrate the peoples' power to rule.

My fight is as just a life tenure of office holding and if non-traced and elected, I promise that I will not undertake to hold office personally, as I believe in dividing the spoils and honors in office among the deserving.

The race is between me and Judge Lewis, the incumbent who has held office by the grace and patience of the republicans of this county for twenty years. Mr. Thompson who aspires to the same position and who, by the way is a good lawyer and Republican, has no showing to win and a vote for him increases the chances for Judge Lewis, my contending opponent, to win this nomination. I am not mistaken in this. The Republicans, who think and know that Judge Lewis has held office long enough, in the county, and grown fat at the public crib; and who are calling for his defeat, cannot accomplish it by voting for Mr. Thompson. You who are against Judge Lewis can defeat him by voting and working for me.

My opponent, Judge Lewis, would have you believe that the county is a corporation and he suggests to you, that when a corporation has once selected its Attorney that it never changes. Such talk is nonsensical. Who would compare Rockcastle County with its people of culture and refinement, to a cold heartless corporation, that arrogates to itself a

mastership over the people.

Justice Harlan late of the Supreme court of the United States in his definition of a corporation says "It is a thing without a soul and which Christ did not die to save". Now from his definition do you think Rockcastle is a corporation? Do you not think Judge Lewis unfair in his comparison? Furthermore he as much as says that he expects this office as long as he lives; that four years from now he will be a candidate again as corporations never change their attorney. The selection of an attorney for a corporation, is made by a board of directors composed of from three to nine members, who are usually intimidated or influenced by the attorney, and that accounts for his tenure of office.

A County Attorney is elected by the people of the county and to the people I am appealing in this race. I am not expecting anything from greedy, hungry and oppressive corporations, like the Standard Oil Co., or its directors, but I am expecting at the hands of a generous, open handed Republican party, such as we have in this county, support and recognition and a nomination for a responsible office. I will indeed be disappointed in case the Republican party of this county allows itself to be browbeaten, intimidated and over influenced so as to put itself on a footing with a corporation and perpetually keep him in office.

The issue is: Are you in favor of one man holding office a life time, or do you believe in giving another a chance and divide the spoils and honors of office? If you are in favor of the latter, vote for me.

I leave the management of my campaign in the hands of my friends and submit my cause to them and the Republicans of Rockcastle, confident of the capacity of the former, to manage, and direct my campaign and cheerfully abiding by the decision of the latter.

I remain, Your friend,
E. R. GENTRY.

INTERESTING SEA-BOARD LETTER FROM MISS ROWLEE.

Miss Maude Rowlee, who has taught in the Langdon Memorial school for the past two years, and who is traveling abroad this summer, writes her impression of New York City and the ocean trip.

In part she wrote as follows: "All the morning we have been watching the coast of Spain, and we are in the Mediterranean Sea and not on the Atlantic Ocean. We were all disappointed because we passed the Rock of Gibraltar at night and there being no moon, only the dim outline was visible. The Straits are only ten miles wide at that point, so if it had been daylight we could have seen the coast of Africa. As it was, we saw the light-house. Yesterday morning we came within sight of Portugal the first land we had seen since leaving America. Such excitement as there was. We stood in the prow of the boat until we were blown nearly to pieces and I never supposed land would look so good. I suppose it was due in large part to the fact that the day before had been the worst one of our voyage. It thinned out the ranks at our table considerably, altho I didn't miss a meal. I had never supposed there would be so much variety in a voyage. The ocean itself is different every day. One day the white caps looked like big snakes chasing each other across the water. Another day they were like little fishes leaping up into the air; again they had the appearance of patches of fresh snow that melted as the wave went down.

The little things that happen about us cause great excitement. A shout as if some player had made a home run brings everybody out on deck to see some

dolphins playing in the water. This is an Italian steamship, and all the officers and crew speak Italian, and also about one fourth of the passengers up here. Of course most of the steerage passengers are Italian. While some of the men speak English we seldom come upon them, and such a time as we have with our gestures. At breakfast the other morning, one woman of our Wichita party tried to ask for a lemon for her tea and drew an omelette. It is more fun than going on an American or English line.

While in New York, we visited the Aquarium, which is one of the most interesting sights I have ever seen. I had not dreamed there were so many beautiful and old fish in the world. We spent a little time but no money at 'Tiffnices' and took a sight seeing automobile through upper New York. I certainly was disappointed in the 'Millionaire's Row'. I would as soon go to jail as live there. Mt. Vernon is the place for me. The more I see the more I am convinced that I never want to leave the Southern Mountains.

BOOMING
BOONE WAY

And Bumping Out Bumps

When persons, factions or communities have thru misunderstandings or misapprehension or laboring under delusions, it doesn't require a life time to clear up the differences and make crooked things straight when each side has its attention called to the subject in the proper way to make the matter plain that all parties concerned are willing to do justice between communities and man and man.

Thru the efforts of the Secretary of our Commercial Club and Mr. James Clark Jr., a leading business man and manufacturer of electrical supplies, Louisville, has about got the atmosphere cleared and the mists blown aside and placed Louisville and this portion of the State on a better understanding, with all indications that they will hence forth work hand in hand for the advancement of the interests of each and all. "So mote it be".

The following letters were not written for publication but their important bearing on a most important situation or condition justifies the printing of same for the general information of those interested, and they are many.

Louisville, Ky.

7, 14, 15.

Mr. James Maret,
Mt. Vernon, Ky.,

Dear Sir:

Your two editions of the MT. VERNON SIGNAL, duly received and I was very glad, indeed, to receive same, especially the one that contained a short history of your career in Mt. Vernon. Am very sorry however that at any time your efforts to help your community were apparently handicapped in any way, by people living where I do. I am sure it was the result of a misunderstanding rather than any attempt to do an injustice to any person or any community of this great commonwealth of ours. You can hardly realize the number of projects and many things that come up before the Commercial Club here in Louisville. If you did you would appreciate that it is right hard to do as much as they would like for everything that is up for consideration. They try to do the best they can at all times where the interest and welfare of any part of our state is concerned.

I have had a talk with several members of the Commercial Club and they still want to do what they can for your project, the same as they did some time ago, and it really is unfortunate that the lack of interest taken by a newspaper should be laid at the door of the business men of our city. I feel confident you will agree with me that they do not always express the sentiment of

a community. They sometimes jump at conclusions. Of course they do not mean to do this, but it sometimes happens, and you, as an editor of a paper, probably realize that such is the case.

It is with great pleasure that I learn from you that the cloud that has been hanging over Louisville for some little time is beginning to disappear, and I sincerely hope that before a great while, there will be nothing but clear skies between Louisville and Mt. Vernon. I am sure that the citizens of Louisville, at least those that I know and have associated myself with in the Booster trips, know that what helps the State is bound to help its metropolis.

I turned the letter over to the Commercial Club, as suggested, and I believe they are going to do as you suggested, in fact, they have already written several letters to several people at Washington, as I understand it, soliciting their aid in the Boone Way. This, I think, shows you that they were sincere when they wrote you some little time ago.

In order to help the cause a little bit, I am enclosing, here with \$2.00 to help the postage fund, in order to get your movement under way.

Trusting you will appreciate the spirit in which this letter is written and hoping to see you sometime in the near future, I am, with kindest regards and best wishes,

Yours very truly,
JAS. CLARK JR.

Louisville, Ky.

17th. July 1913.

Mr. James Maret,
Secretary Commercial Club,
Mt. Vernon, Ky.,

Dear Sir:

The attention of the Board of Directors of the Louisville Commercial Club has been called by one of its members to your circular of July 15 outlining the plans of your organization for construction of Boone Way; also mentioning the fact that it would not be considered out of place for us to contribute something to the fund being used to defray expenses of printing, etc. In this connection you will find enclosed check for \$10.00 as a small contribution which I trust you will find acceptable.

I assure you that the Louisville Commercial Club is taking a keen interest in everything pertaining to the development of the Eastern section of our State and particularly in the construction of the national highway that you have undertaken.

With all good wishes for the success of the Mt. Vernon Commercial Club in this undertaking as well as in its various other lines of endeavor, I am,

Yours very truly,

W. E. MORROW,

Secretary.

Mr. Jas. Maret,

Mt. Vernon, Ky.

My dear Mr. Maret:

Your very kind letter of recent date duly to hand, and of course I cannot but appreciate the fact that my letter to you was well thought of by your Club. I had no idea you were going to read it to them, much less that they were going to publish it in their paper. Such a thing was never even thought of for a moment. I simply had in mind through all our correspondence, the interest of our community and your community, endeavoring to try to straighten out the feeling that I have felt all along should not really exist, although from outward appearances, it was justified.

It is my sincere hope and wish that everything will come out all right before long and that the Boone way will be a reality before a great while.

It isn't often that I have ever gotten my name in any paper, but if it will help you in any way, why it is all right to let it appear there.

With kindest regards and best wishes, I am,

Yours very truly,

Ex-Governor Beckham Makes An Address The Last Day of the Brodhead Fair

AUGUST 15, 1913

Gov. Beckham's Letter of Acceptance

Frankfort, Ky.,
July 12, 1913.

Mr. A. M. Hiatt,
Brodhead, Ky.

Dear Sir:--

I must ask your pardon for this delay in not answering your very kind letter of several days ago; but absence from my office has prevented my doing so.

Even if I wished to do so, I could not resist your most cordial invitation to visit your County Fair on Aug. 15, and I shall therefore gladly try to be with you on that day.

I deeply appreciate your kind interest and friendship for me.

With kindest regards, I am,

Very sincerely yours,

(Signed) J. C. W. BECKHAM.

GOV. J. C. W. BECKHAM
OF FRANKFORT

Will address the people at the grounds of The Rockcastle County Fair Association the last day of the Fair, August 15, 1913.

Friday, August 15th to be

"Beckham Day"

AT THE
Rockcastle County
FAIR

BRODHEAD KENTUCKY

The people of this and adjoining counties will be given the opportunity of hearing an address by Ex-Gov. J. C. W. Beckham, one of the best orators and no doubt the most popular man in Kentucky to-day.

Very few of the people in this section of the state have ever had the privilege of seeing and hearing him.

His consenting to visit The Rockcastle County Fair will, no doubt, prove a great drawing card for the occasion and the people will no doubt appreciate this privilege of hearing the Ex-Governor speak and at the same time enjoy the day at the FAIR.

WHEN you hear a man sneering at a local paper because it is not as big, cheap and newsy as the city paper, you can safely bet he does not squander any of his wealth in assisting to make it better and that generally the paper has done more for him than he has for it. The man who cannot see the benefits arising from a local news paper is about as much value to a town as a delinquent tax list.

To the Voters of Laurel and Rockcastle Counties:--

I am a candidate for the office of Representative subject to the action of the Primary, August 2nd 1913. I believe that the Representative should be a Republican, one that has worked for the interest of the party. I was Chairman of the Laurel County Campaign Committee last year and gave that office my best efforts. If I am nominated and elected I shall work and vote for all measures that will be for the best interest of the district and State. I believe that our State affairs should be corrected as our State debt is increasing daily and we should have a Representative that will vote against class legislation and political preference appropriations and reckless use of the peoples money. I stand for a lower tax rate and this can only be accomplished by electing men as Representatives that have business training and experience in handling their own affairs successfully. I shall give the office the same careful consideration that I have my own business.

There is a number of important measures that should be passed among them I believe that interest the people most is a Corrupt practice act, one that will give proper protection to the honest poor man that aspires to office and give to him the same opportunity that the rich now has in securing an office. A real railroad rate bill that will give our people the same protection that

our sister states enjoy." A better road system. State aid for the "Boone Highway". Industrial Accident Act Designed as between employer and employee to do equal, full, complete, speedy and summary justice. It will design where the employee has been injured in the course of his employment, to afford him a means without the hampering of the tortuous proceedings of a law-suit that now would require the expenditure of money that he could ill afford, and without interposing those technical defenses to which I can not in detail refer. I believe in the economical conduct of the State affairs as much as personal economy.

I solicit the support of all lovers of good government of all parties, and invite the wayward Republicans to return and elect a full Republican ticket that will meet the approval of all parties. I have not the time to see you before the primary, and I take this method of soliciting your support and influence.

Respectfully,
JOHN WOODWARD

TO THE REPUBLICANS OF
ROCKCASTLE COUNTY

My opponents are making accusations, that I have grown rich from office salaries. This is untrue, I am not a rich man by far, am not even a comfortable liver, if I did not exercise my muscel, the wolf would howl at my door. I have a little property consisting of a hill side farm; that cost me about \$1500, a dwelling in Mt. Vernon some live stock my growing crop and this includes my property all told save a few shares of bank stock. So far as to the purchase of my term I earned every dollar of the purchase price independent of an office and that by the sweat of my brow and proper exercise of the muscel, and the same opportunity presented its self to my opponents, as was presented to me "There is a tide in the affairs of men taken at its flood leads on to fortune" I have never been a drows in the worlds live, I have taught school the same as my opponents, but instead of taking six and seven months vacation between terms I put in the time in labor, and by so doing I earned enough money to buy a farm. I have held divers positions of trust, never was discharged, always finished the job, and I suppose my employment was satisfactory, as I never heard any complaint from employer. I presume from the appearance of my opponents, they have journeyed down the path of life, beyond the thirtieth

mile stone.

I must be a wonderful person if you believe the statement made by them; this is the first time in all my life I ever heard of a public officer getting rich, of all I have ever read of, and observed, it has been to the contrary. I have read the biographies of the major part of our public officers both native and State, have seen those at home and all from a pecuniary condition were poorer financially than when they began. So I am flattered beyond my fondest dreams to think of the hosts of them who have passed over the silent stream, and those who are now walking the journey of life with us; that I have surpassed all and stand pre-eminent. The Presidents have hard times in securing Cabinet officers and ministers for foreign posts, because those who were competent when solicited desired to stay in their business or profession and make money, possibly none of them every heard of Ed and Bodie.

One of my opponents by letter says I have been in office twenty five years, this is untrue my tenure is as follows: I was first Circuit Court Clerk, served a term of five years and at the time the office did not pay exceeding \$300 per annum, then the tocsin of war was sounded between this nation and the kingdom of Spain I made up more than one half of a Company and was Commissioned a 1st. Lieut., served nine months "till peace was declared and was honorably discharged at Amistion Ala. I afterwards was Commissioned by the U. S. Treasurer as Store Keeper and gauger in the internal revenue service, served about nine months, resigned upon the solicitation of home friends, came home and was elected County Judge, since I have been elected two full terms as County Attorney. If I had wanted to have made money I was under Civil Service and my tenure was life and the salary was from \$100 to \$150 per month, I would have stayed in the government service, either sum is far greater than I have ever earned since resigning; but I feel like the fellow who went from Ky. to Ill., declared he had rather be hung in Ky., than to die a natural death in Ill. I had rather live in poverty with my friends in Rockcastle County, than dwell in luxuries in alien lands. If my opponents had have scratched in this world as I have they would not need the salary of an office. I have practically spent my salaries in office in support of our party and so long as I have a voice and a penny the

banner of the Republican party shall never be furled.

With kindest greetings to all.
Your friend,
S. D. LEWIS.

RID YOUR CHILDREN OF WORMS.

You can change feeble, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brislin, of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail, Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

Precinct No. 11—I. R. McCracken d., Frank Baker r., judges, J. R. Ballinger r., sheriff, Bob Allen d., clerk.

Given under our hands, this the 15th day of July, 1913.

W. M. POYNTER,
NEAL PARRETT,

Election Commissioners, Rockcastle County.

Hon. Geo. W. Castle, Assistant State Examiner and Inspector, has been in our county this week inspecting and examining the records of the public offices of the county. In his report which he filed July 23, 1913, at Frankfort, Ky., with the Auditor of Public Accounts, he has this to say of Judge Bethurum's office:

"Upon the examination of Judge Bethurum's records, I find that he has paid over all moneys belonging to the state, and has been very careful in his accounts and in the prompt collection of all moneys that he should have collected. His records are the best kept records of a County Judge of any that I have ever examined. He is the ablest and best County Judge of my knowledge, in the whole state." G. W. CASTLE, Assistant Exam'r and Inspector.

The north wall and north west corner column of the Rockcastle

Hotel, being built of Langford Rockcastle stone has reached the height of ten feet, the first story and a belt of 16 inch face stone has been placed therein.

On west end of this belt, on a rich side of building, appears the name "Rockcastle" chiseled into the stone by that expert in his line George Owens. On west side, beginning at corner, on Third St., side, on same sized stone, will be the word "Hotel 13". Mr. Rider believes he will have the building ready for guests to take Christmas dinner in the new structure. The edifice will be a modern and the most conveniently arranged hotel in South Eastern Kentucky.

Visitors to the Mt. Vernon Fair will not lack for entertainment and diversions. The special feature at the fair ring will be Devoto, the celebrated world renowned sensational cyclist who rides down a ninety foot incline at the foot of which he rises over an up curve passing over an arched air gap of something like 30 feet alighting on another portion or inclined plane, thence rushing on to earth. Another fine exhibition will be "Hurricane" an immense ostrich which will be driven to harness in the ring and is said to out trot any horse.

VOTERS:—Forty years in the profession of teaching, W. A. B. Davis surely knows the needs of schools and is peculiarly fitted for the proper discharge of the duties of Superintendent of schools. Vote for him. He will take pride in the work. (Advertisement)

How The Worm Kills Germs.

Germs that get into the blood travel in two ways—by the white corpuscles of the blood, and by a germ-killing substance that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off a germ attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has exceeded Dr. Pierce's Golden Medical Discovery, a pure glyceric extract without alcohol, of bloodroot, golden seal and Oregon grape root, stone root, mandrake and queen's root with each cherry bark.

"My husband, as a sufferer from stomach trouble and impaired blood," writes Mrs. James H. Martin, of Franklin, Ky., "while he was on his feet that would form a team would be a very small thing. It continued this way for a long time. I soon saw that any one would suffer as he did. He then tried Dr. Pierce's Golden Medical Discovery, which completely cured him. He has been a healthy man ever since and I recommend this medicine to all who suffer from the blood."

Dr. Pierce's Golden Medical Discovery regulates and invigorates stomach, liver and bowels. It builds up the blood, and cures all ailments of the blood.

DRUG STORE

Here are several reasons why I trade at C. C. Davis' Drug Store:

- BECAUSE—Quality considered, his price can't be beaten.
- BECAUSE—There are no delays; customers receive prompt attention.
- BECAUSE—Things we get at Chas. C. Davis' Store are all right.
- BECAUSE—Things that go wrong bought at "Chink's" place will be made right.

Republican Committee in Session.

Issues an Address.—Lauds the Grand Old Party, and felicitates on its Record and Achievements.—Regrets the want of Harmony in the Party, and appeals to Republicans who supported Col. Roosevelt to return to the Party.—Urges them to participate in the Primary.

As the Republican Party is to make nominations in this County at the coming Primary in August, and will soon be engaged in a struggle with the Common Enemy, the Democratic Party, for the election of the ticket nominated in said primary, your Committee, the governing authority of the party in this County, desires to call the attention of every Republican, and all other voters, to the origin, and matchless achievements, of our Glorious Party.

The history of the Republican Party for the last 50 years is the history of the American Republic. It has a noble origin. It sprang into existence because of an aroused, indignant National conscience; it has answered the purpose of its existence, and brought to the party and this country magnificent achievements.

Except the interim of the Cleveland regime, and the present administration at Washington, the Republican Party, since its glorious birth, has controlled the Government. Everything great done by this country since 1854 has been done by the Republican Party. To guide the Old Ship of State we have had at the helm Lincoln and Grant, Hayes and Garfield, Harrison and McKinley, Theodore Roosevelt and William H. Taft.

Republican Congresses, with the intelligent aid of these illustrious leaders, have shown that the Republican Party has the capacity to govern and cope with the problems as they arise in a Nation's life, and work them out to the satisfaction of a majority of our countrymen. The Republican Party gave to the people and this country the National Homestead Law, which distributed the immense National domain; it built the Pacific Railroad, which has bound the Union together from East and West; it redeemed our paper currency, made all our money of exactly equal value, and our credit the best in the world; it established the Gold Standard, which placed our monetary system on a stable basis and in harmony with the great Nations of the world; it passed the Hepburn Railroad rate bill and the pure Food Law; built the Panama Canal; the Sherman anti-trust law has been interpreted, and great Trusts, like the Standard Oil and Tobacco trusts, have been made to feel that the Statutes carry penalties against them; Postal Savings Banks and Parcels Post have been established; the post office department has been placed upon a self-sustaining basis. The Republican Party has persistently adhered to the policy of Protection, which has given to our industries a development never dreamed of by our forefathers, besides supplying our home market, has carried our manufactures to the uttermost ends of the earth. Under the guiding hand of the Republican Party the United States has become the most prosperous nation in the world.

When the Republican party was born the total wealth of the country was less than Sixteen Billions of dollars. The wealth of the country, under Republican administrations, has leaped to the phenomenal sum of more than One Hundred and Twenty Billions of Dollars.

The Republican party, small in Kentucky in the beginning, has steadily grown until it can point with pride to three Republican Governors, and the record of the Republican administrations in this state is in keeping with that made by the Republican party in the nation. In addition, we have at present two seats in the National House of Representatives, ably filled by two of Kentucky's most brilliant sons. Besides the "noblest Roman of them all," the greatest living Kentuckian, the Moses of the Republican Party in this state, William O'Connell Bradley, is filling with distinction and splendid ability a seat in the National Senate.

Our party is not now in control at Washington. We lost in the late election because of the want of harmony in nominating our last National ticket. This is a Republican Nation, as this is a Republican County, and when we are united, either in the Nation or the County, there is no reason for defeat of our party at the polls. As Republicans we stand for the same principles, and look to the same source for inspiration.

Your Committee, representing the Republican party in this County, appeals to the Republicans of this County, whether you voted for Mr. Taft or Col. Roosevelt in the last National election, to come out and take part in the Republican primary in August, and help nominate a Republican ticket—a ticket composed of true men that we all can unite upon and elect at the coming November election.

Now what concerns your Committee is the future of the party. We are anxious to see the Old Banner of the Republican Party high in the air with "Victory" written upon it. Victory will come to the old party in the future, as in the past, by harmonious action and united efforts on the part of all the Republicans.

By order of the Committee,

SURPRISING CURE OF STOMACH TROUBLE

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stendie, Plainfield, N. J., writes: "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who have been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For sale by all dealers.

KENTUCKIANS' HOME-COMING

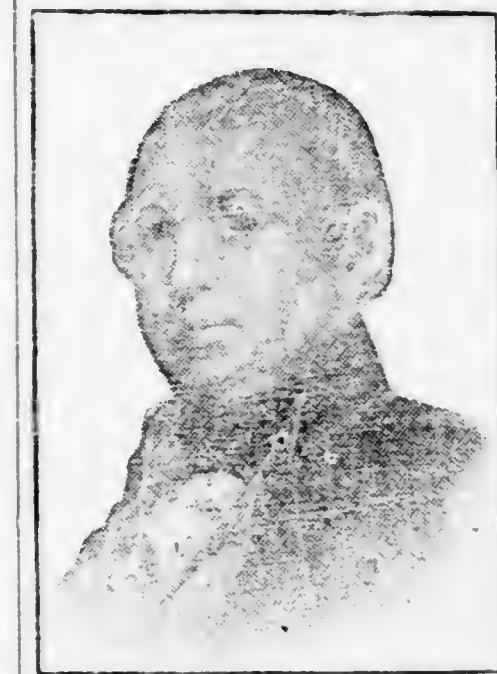

ONE MILLION FORMER RESIDENTS INVITED TO ATTEND GREAT CELEBRATION.

RAILROADS OFFER LOW RATES

Perry's Victory on Lake Erie, Battle of Thames and Massacre of River Raisin To Be Reproduced in Fireworks and Sham Battles.

One million expatriated Kentuckians and their children, even to the fourth and fifth generations, have been invited to return to Louisville to participate in the Perry's Victory Centennial Celebration, to be held in that city seven days, beginning September 29. Those particularly invited are the descendants of Kentucky soldiers and sailors of the War of 1812, and it is estimated that 75 per cent of native-born Kentuckians and the descendants of those born in Kentucky in the past century are eligible to participate in such a celebration. Approximately one million people have living in other states are included in the "list of those invited."

The purpose of the Louisville celebration is to commemorate not only Perry's victory on Lake Erie but all other events of the war of 1812. However, in particular honor of Commo-

GOVERNOR ISAAC SHELBY, OF KENTUCKY Who in person led the victorious forces in the Battle of the Thames.

dore Perry a special attraction in the Louisville celebration will be the reunion of the Perry family, regardless of kinship. Everybody by the name of "Perry" will be invited to this special entertainment and those who expect to attend are requested to notify Edwin Perry at the Louisville headquarters.

The Kentucky Association, which has in charge the Louisville celebration, has given an order for a quarter of a million ancestry certificates to be handsomely engraved, and which will be filled in and given away as souvenirs to descendants of Kentucky soldiers and sailors of the War of 1812. Another entertainment in their honor will be a mammoth reception, at which refreshments will be served and opportunity provided for public addresses. For the few remaining actual sons and daughters a banquet will be given. A great ball will be given in the First Regiment Armory, which has a capacity of 20,000 for them.

Forty per cent of the white male population of Kentucky engaged in the War of 1812, consequently forty per cent of the succeeding generation were actually sons and daughters of that war, and, estimating that one-half of them intermarried with families which did not participate in the war, sixty per cent of the third generation were grandchildren of the war, and in similar manner at least seventy-five per cent and probably as high as ninety per cent of the fourth and incoming fifth generations are descendants of Kentuckians who fought in that war.

It is estimated that in the state of Kentucky alone one million men, women and children are eligible to participate in the proposed reunion, and it is estimated that another million now living outside of Kentucky are eligible to participate.

During the week of the celebration in Louisville spectacular free events, including features on a mammoth scale not heretofore given with any American celebration, will be provided every afternoon and evening. Pilgrimages to notable historic scenes of interest may be made in the mornings. In addition to free attractions there will be scores of the highest priced amusement concessions that can be secured on the American continent.

The railroads in a radius of 500 miles of Louisville have been asked to make a rate for the celebration week and immediately preceding and following that week of one cent a mile. Railroads running out of Louisville probably will give low rates to other points in Kentucky, so that former Kentuckians who live a great distance can visit their old homes as well as attend the Louisville celebration.

Local committees are preparing an 1812 museum, in which they solicit the loan of any souvenir or relic of the War of 1812, providing the transportation at their expense, and guaranteeing that articles loaned for the week will be returned to owners. This museum for the time being will undoubtedly be the most valuable collection in America.

FOR CUTS, BURNS AND BRUISES.

In every home there should be a box of Bucklen's Arnica Salve, ready to apply in every case of burns, cuts, wounds or scalds. J. H. Polanco, Delvalle, Tex., No. 2, writes: "Bucklen's Arnica Salve saved my little girl's cut foot. No one believed it could be cured." The world's best salve. Only 25c. Recommended by Chas. C. Davis.

CELEBRATION IN LOUISVILLE

KENTUCKY METROPOLIS WILL COMMEMORATE INCIDENTS IN WAR OF 1812.

HUNDRED YEARS OF PEACE

Battles Which Kentuckians Won and Massacres in Which They Suffered Will Be Reproduced in Fireworks and Sham Battles on Land and Water.

A week's celebration, which Louisville declares will be the greatest and most spectacular in the history of celebrations in America, will be held in the Kentucky metropolis for seven days, commencing September 29, and will be the climax of a series of celebrations held in a dozen lake cities, to commemorate the sufferings and victories of American arms in the War of 1812 as well as to focus attention on the achievements of a century of peace. The crucial and decisive engagement of the War of 1812 was the battle of the Thames, fought and won on Canadian soil October 5, 1812. The series of celebrations, which will be held in America will close in Louisville, October 5, 1913, and just one hundred years from the hour that Gen. Richard M. Johnson, afterward Vice President of the United States, saw the Indian chief Tecumseh, President Woodrow Wilson will probably be addressing a crowd of 100,000 people in Louisville, the home of many of the troops who fought in the battle of the Thames.

Kentucky was assigned the closing and choice date of the celebration because of the distinguished part played by the Kentuckians in the War of 1812. Kentucky began to play her part in the generation before the war opened, when she sent Gen. George Rogers Clark and other Louisville soldiers into the hostile wilderness which they wrested from the French and Indians and out of which was afterward carved the great States of Ohio, Indiana, Illinois, Wisconsin and Michigan.

Kentucky was the last state which could have benefited from the war, inasmuch as it was brought about chiefly by the British impressment of American seamen, none of whom were Kentuckians, whereas should war prevail the unfriendly Indians on the frontier of the border states could be expected to commit atrocities from which Kentucky had already received the name "Dark and Bloody Ground." However, it was chiefly Henry Clay, in the Kentucky Congressional Delegation that forced President Madison to declare the second war with Great Britain, and Kentucky furnished forty per cent of her fighting population to go into that war, and at the close of the war of the listed dead more than eighty per cent were the names of Kentuckians. Kentucky troops to a man were massacred at the River Raisin and again at the first attack on Fort Meigs.

When the time came to man Perry's new-hewn ships, he selected Kentuckians unaccustomed to the motion of the lakes to mount into the insecure rigging and from that vantage point, with their practiced eye and unerring aim, fired down upon the British and won the battle of Lake Erie. Practically every officer and soldier in the battle of the Thames was a Kentuckian, excepting alone Gen. William Henry Harrison, who, however, held his commission as Major-General from the Kentucky legislature. The charge of the Fortin Hope, about the belief, most terrible and most heroic attack narrated in the annals of warfare, consisted exclusively of Kentucky soldiers when nineteen of them and their twenty horses went down to certain death. It was the Kentucky sharpshooters who are credited with having won the battle of New Orleans after the war had in reality closed.

Kentucky proposes to reproduce most of these scenes of the war of 1812 in the Louisville celebration. The battle of the Thames will be reproduced on land in Cherokee Park, topographically situated similar to the land on which was fought the battle of the Thames, and every detail of the sham battle will be as nearly historically correct as can be done. Louisville will take advantage of her magnificent river frontage in order to celebrate suitably the battle of Lake Erie. The actual battle will be depicted in a gorgeous entertainment of fireworks and all morning and all afternoon preceding the engagement there will be boat races, life saving feasts and aquatic sports. A historical pageant, depicting various scenes of the war of 1812 will also include a magnificent floral parade, such as made Louisville famous a year ago, and will include civic and military parades many miles in length. Drills and exercises by 10,000 costumed school children will be held in the First Regiment Armory; a mammoth reception will be given to the descendants of Kentucky soldiers and sailors of the war of 1812, and a series of costumed balls will be given in their honor.

Exceedingly low railroad rates, probably as low as one cent per mile, from a distance of several hundred miles of Louisville, will be granted and efforts are being made to secure to other Kentucky points rates from Louisville for the week immediately following the celebration, to enable former Kentuckians who return home to visit the celebration, to visit also their old Kentucky homes.

HUGH MILLER

TO THE REPUBLICANS OF ROCKCASTLE COUNTY:

Staunch Republicans from all parts of the county have gathered me to enter the contest for the Republican nomination for the position of County Judge.

I pledge them that I will make them suffer, officers that I will give to the office my full time, diligence and painstaking attention; that I will use the office as a means to continue in the county the reign of peace and order, and as a means to represent the reverence of lawlessness which at one time was so rampant in the county, and which has been suppressed by the efforts of the officers selected by the people in the past.

My party was generous enough to nominate and elect me to the office of Circuit Court Clerk. I appreciate the honor and have earnestly tried to make a good job of it.

Think the matter over, and if you feel that you can give "Old Hugh" a lift he will be under lasting obligations to you.

Yours sincerely,

HUGH MILLER.

To the Republicans of Rockcastle: In a few days the curtain will fall upon the political arena and the political aspirations and ambitions of many will be buffed beyond the hopes of recovery; we will have passed another milestone in the history of Rockcastle; we will have shown ourselves in favor of advancement or against progress; which shall we do?

preference in the choice of schools but I do not believe incompetent persons should be granted certificates. The Good Book tells us that if the blind lead the blind they will fall in the ditch, and I believe the very reason why Kentucky stands so low in the scale of literacy is because so many certificates have been granted to incompetent persons who through kinsfolk or some other pull have been employed to teach our schools.

As a citizen of Rockcastle county, a teacher by choice and necessity, and a candidate for the office of Superintendent of schools of our county, I ask you to give careful consideration to my claims and will appreciate your support on August 2.

One hundred and four Republicans from different parts of the county have signed a petition declaring their intentions to support me for this school office. I ask the voters to consider what my friends think of my fitness for this place, instead of listening to those who may not be my friends may say.

I will outline some of the general policies for which I stand. I believe in industrial as well as intellectual and moral training. I favor a hearty co-operation of the rural, graded and high school interests of the county.

I believe a Superintendent should stand by the teachers, encourage them and help to bring about the same spirit among the patrons. I think the greatest opportunity to better the schools is to strengthen the teachers, by requiring a higher standard from

In examination of applicants for teaching certificates, I believe in having a school in each of every child. (though I wish to say here that the kind of education has refused to establish some very badly needed districts because they were not able to build the houses which they would require. But they will no doubt be established in a few years.)

I am always willing to assume the blame for my mistakes but I do not think I should be held responsible for the acts of the county court in which I do not have a vote except in case of a tie. I am being urged by some of the influential members of the county court to run for county clerk.

Friends, there are a great many things I would like to talk with you about but I shall not attempt to do so at this time but I am submitting my candidacy to your consideration, believing you will deal fairly with us all and try to select the best material to watch over the interests of your boys and girls.

Hoping that if I am not fortunate enough to see you before the election day you will remember me at the polls.

Your friend,
J. W. KINCER.

Miss Tempest Ward.

To the Citizens of Rockcastle County:— The education of our children is a sacred trust. Upon the ability of our boys and girls of today depend the industrial, intellectual and moral conditions of the men and women of the future.
